Need Help?

Hello from Dr. Dan Hagi

Dear Friend,

Thank you for taking the time to download this eBook.

The new chapter in your life with All-on-4 dental implants starts with asking the right questions!

Here are 5 questions you MUST ask your dentist about your new smile. A smile you can be proud of and feel confident with.

I hope the information inside helps you decide the best possible All-on-4 treatment option for your specific needs!

If you decide that All-on-4 implants are for you, then come see me at DH Smile Center.

P.S. I included a BONUS Cheat Sheet at the end for you as well... make sure you check it out!

Dr. Dan Hagi

*The Leading Dental Centers
of The World®*

1. What material do you use for the All-on-4 bridge?

Most dentists only offer traditional, metallic Acrylic bridges. Because they are cheaper and easier to repair.

But, you should be aware that they are easy to repair **because they need frequent repairs. Wear out faster.** And are **prone to staining and debonding of the teeth from the acrylic bridge!**

Fortunately, We use Prettau Zirconia Ceramic Bridges. Our strongest, most beautiful bridges!

Which demonstrate over a **99% success rate!** This material shows **no chipping, no staining or no breakage.** It is **harder than Acrylic** (for the heavy grinders). And has **no chance of delamination/debonding of the teeth!**

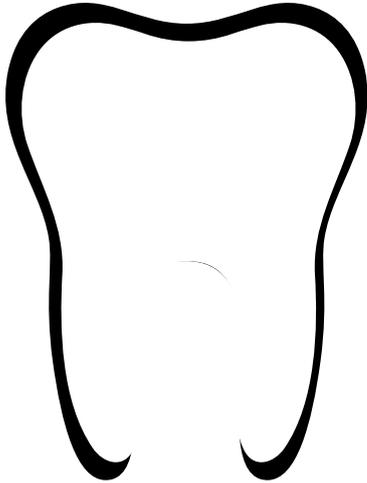

It can also be layered with porcelain to **give you a more aesthetic, natural look.** Making sure there are no grey, metal lines showing in your gums. Giving you the freedom to **always smile confidently!**

2. What guarantee do I get on your dental work?

We offer a **5 YEAR guarantee** on our All-on-4 treatments!

We follow up our quality dental service with a reliable warranty to show our commitment.

All of our dental procedures under warranty will be covered by us at 100% no cost to you!

In the event that something happens. You can step into our facility and I will replace the problematic implant with a new one - at no additional cost to you!

We believe that our relationship with our patients should be built on mutual trust. And we stand by our commitment to you.

That's why **we include 1 YEAR of maintenance. AND use Premium Components to increase longevity of your dental implants!**

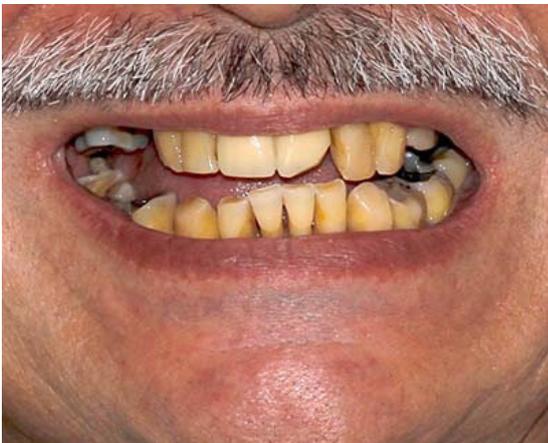

Bonus Tip #1

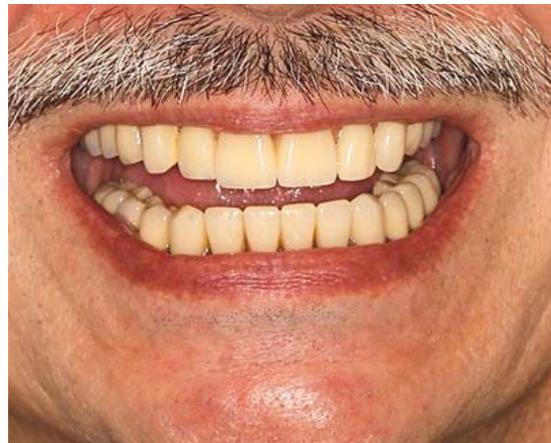

"Getting new teeth is a big decision and a serious investment. You are getting new teeth that will last you at least 15 years. When it comes to your health, there should be no compromise between the quality and the cost."

- Dr. Dan Hagi

Before

After

"I can't thank Dr Hagi and his staff enough for making me smile again. I had extremley bad teeth and I had them removed and replaced with implants.

One of the reasons I chose to do my teeth with Dr Hagi is, I liked that everything was done in the same office from start to finish."

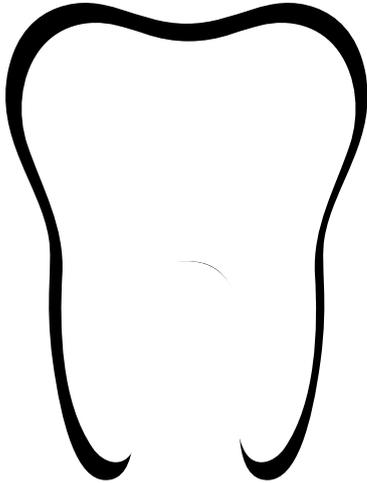

Fredrick S.

3. Who is the dentist and what are his expertise?

Dr. Hagi has extensive knowledge and expertise in all aspects of dentistry. With his **primary focus being same-day installation of dental implants.**

Dr. Hagi is widely renowned as a leading Canadian dental authority by multiple magazines, news channels and online media. He gets the most attention for improving the traditional All-on-4 dental implant techniques. To offer better level of care and results to his patients.

Since the All-on-4 dental implant procedure is not featured in traditional dental schools. It can only be mastered through **years of training and experience!**

Dr. Hagi's private practice is **one of the ONLY TWO Canadian facilities to have ever joined The Leading Dental Centers of the World!** For excellence of care and results provided to his patients over the years of his practice.

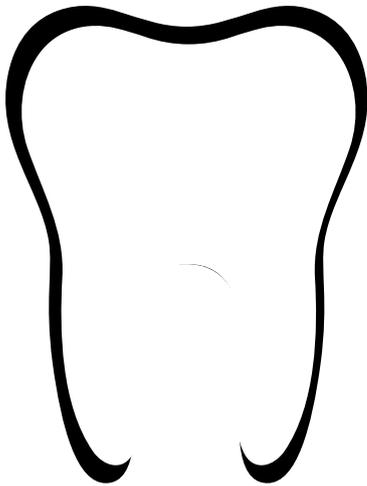

4. Can I use cheaper alternatives to All-on-4 implants?

Watch out for the cheaper imitations!

There are many treatments being offered under the name All-on-4 Treatment.

Cheaper imitations offer the same performance for a much lower price. Some of the most popular ones are:

- 1) Implant retained dentures
- 2) Implant supported bridge

Getting your **long lasting (15 years and more), natural looking teeth**. Custom made to your personal requirements. Will restore your self-confidence and self-esteem.

Putting an end to the suffering, embarrassment, and inconvenience caused by missing or falling out teeth is a lifetime fix. **So you can eat properly again, improve your oral health and actually be proud of your smile.**

Always do your research in picking the best quality and best dentist for your new million dollar smile!

Bonus Tip #2

"All-on-4 is a complex procedure. Your mouth is undergoing a complete restoration. If you let yourself in the hands of an inexperienced doctor. Even if the best materials are used, you won't be happy with the final work!

The skills and expertise of the dentist are just as important as the quality of the materials used. One cannot go without the other!"

- Dr. Dan Hagi

Before

After

"Dr. Hagi and his team are literally "Angel's on Earth". I would do the procedure again with no fear, no reservations and no regrets. As I am so fond of saying...Dr. Hagi has hands of gold, and a heart to match! I can't not thank Thornhill Smile Centre enough for changing my life."

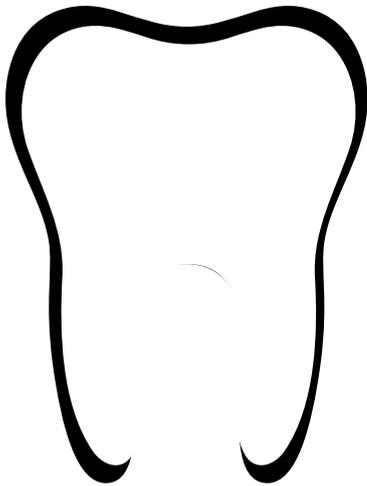

Karen R.

5. What happens if something goes wrong?

We work with the most Premium materials, Cutting-Edge equipment and technology at DH Smile Center Dentistry.

Not only does this make the entire process simpler. It makes it more convenient for you. As you never have to go to any other clinic / location to get any tests, x-rays, etc. done. We are a one-stop-shop for all things dental.

Our latest and most advanced techniques make the procedure shorter. **Giving you your natural looking smile in the same day.**

In case of any unforeseen circumstances, Dr. Hagi will change your treatment plan as needed to ensure the best possible results.
