Dr. Dan Hagi of the Thornhill Smile Centre gets Implant Institute Fellowship

The Thornhill Smile Centre is proud to announce that Dr. Dan Hagi has attained the Misch International Implant Institute Fellowship (M.I.I.I.F). Demonstrating a commitment to dental education and excellence in dental implant care.

THORNHILL, ON, CANADA, May 28, 2009 **/24-7PressRelease/** -- The Thornhill Smile Centre is proud to announce that Dr. Dan Hagi has attained the Misch International Implant Institute Fellowship (M.I.I.I.F). Demonstrating a commitment to dental education and excellence in dental implant care.

Dr. Dan Hagi holds a Fellowship with the Academy of General Dentistry and the International Congress of Oral Implantology. His recent accomplishment with the passing of the Misch International Implant Institute Fellowship exam places him with a small group of talented dental care providers. Dr. Hagi is committed to providing evidence based excellence in implant dental care.

The Misch International Implant Institute was developed in 1984 to help set and elevate the standard of care in implant dentistry using a hands-on approach. Now world renown, the Institutes goal is to remain at the forefront of implant dentistry through research, education and its unique clinical applications. Using these tools and a well-trained faculty, the Institute is able to provide its students with the most progressive and documented information.

This Implant Prosthetics program was developed for practitioners whose primary interest is the restorative phase of implant dentistry. The "Team Approach" is emphasized and many surgeons and periodontists find this program enhances their relationship with their referring doctors. Participants attend specific lectures on implant diagnosis, treatment planning and patient evaluation, as well as all prosthetic phases of implant treatment.

The Implant Surgical Program was developed for clinicians who want to expand their knowledge of implant dentistry by learning advanced practical applications. Participants attend lectures on patient selection, implant diagnosis, treatment planning and patient evaluation.

Dr. Hagi has completed both programs. His commitment is to both the surgical and prosthetic implant rehabilitation.
